SKILLS

- AWS CLOUD
- Amazon EC2 , S3
- IAM , EBS
- Elastic Load Balancing
- Linux
- Python , Java , C
- MySQL , PostgreSQL
- Git & Github
- Hadoop , HBase

LANGUAGES

- English
- Hindi
- Marathi

ACHIEVEMENTS

- Completed practical projects using AWS Cloud Services
- Cloud Business Application Virtual Internship
- Aws Certifeied Cloud Practitioner (In Progress)

PROFESSIONAL SUMMARY

Motivated B.Sc. Cloud Computing student with hands-on academic experience in AWS cloud infrastructure, Linux, Python, Java, C, SQL, Git, and cloud-based applications. Familiar with AWS services including EC2, S3, IAM, EBS, and Elastic Load Balancing through practical projects and coursework. Experienced in deploying web applications on cloud infrastructure, managing cloud storage, configuring access permissions, and working with Linux command-line tools. Strong interest in Cloud Computing, AWS, DevOps, and Cloud Infrastructure and eager to develop practical skills through an entry-level internship opportunity.

projects

- Employee Data Storage & Retrieval System**
 - HBase | Hadoop | AWS
 - Developed an employee data storage and retrieval system using HBase.
 - Implemented CRUD operations for storing, retrieving, updating, and deleting employee records.
 - Worked with the Hadoop ecosystem and distributed data storage concepts.
 - Designed and managed employee datasets for practical data-processing tasks.
- Virtualized Infrastructure for a Small Organization**
 - Cloud Computing | Virtualization | AWS
 - Designed and documented a virtualized infrastructure for a small organization.
 - Studied virtual machines, cloud computing resources, networking, storage, and security.
 - Proposed an infrastructure architecture based on organizational requirements.
 - Documented resource configuration and cloud infrastructure components.

EDUCATION

Bachlor of Science in Cloud Computing 2024-2027
SGPA : 9.45/10
New Arts ,Commerce and science College,
Ahmednagar
